

Press Release

TechnipFMC Awarded Significant Contract by TotalEnergies for Subsea 2.0™ Production Systems

NEWCASTLE & HOUSTON, June 16, 2022 — TechnipFMC (NYSE: FTI) has been awarded a significant⁽¹⁾ contract by TotalEnergies EP Angola to supply subsea production systems for the CLOV3 development in Block 17, offshore Angola.

It is the first contract under the companies' new framework agreement covering subsea trees for brownfield developments in Block 17 in Angola. The CLOV3 contract includes Subsea 2.0™ trees and associated controls, umbilical termination assemblies, jumpers and services.

Jonathan Landes, President, Subsea at TechnipFMC, commented: "We are proud to continue working with our valued partner TotalEnergies EP Angola, with the support of our large installed base. Our framework agreement and the CLOV3 contract are the result of several years of collaboration to standardize subsea production equipment and optimize subsea developments."

Subsea 2.0™ products use standardized components that are pre-engineered and qualified, which allows equipment to be rapidly configured according to each project's specific requirements. This optimizes the engineering, supply chain, and manufacturing processes, thus reducing the time to first oil and/or gas.

⁽¹⁾ For TechnipFMC, a "significant" contract is between \$75 million and \$250 million.

Important Information for Investors and Securityholders

Forward-Looking Statement

This release contains "forward-looking statements" as defined in Section 27A of the United States Securities Act of 1933, as amended, and Section 21E of the United States Securities Exchange Act of 1934, as amended. The words "believe", "estimated" and other similar expressions are intended to identify forward-looking statements, which are generally not historical in nature. Such forward-looking statements involve significant risks, uncertainties and assumptions that could cause actual results to differ materially from our historical experience and our present expectations or projections. For information regarding known material factors that could cause actual results to differ from projected results, please see our risk factors set forth in our filings with the United States Securities and Exchange Commission, which include our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K. We caution you not to place undue reliance on any forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly update or revise any of our forward-looking statements after the date they are made, whether as a result of new information, future events or otherwise, except to the extent required by law.
