

## Technip awarded term agreement with BG in the North Sea

June 22, 2010

Technip has been awarded a major four-year term agreement by BG Group for the provision of pre-FEED(1), FEED, full EPIC(2) and IRM(3) services in both the United Kingdom and Norwegian Continental Shelves. The agreement contains a provision to extend the contract with a further three one-year options.

This agreement, which takes immediate effect, will apply to multiple field developments and is already being applied to the Blake, Flank and Pi projects using vessels from Technip's suite of pipelay, construction, trenching, survey & utility and DSV(4) assets.

Knut Boe, Senior Vice President of Technip's North Sea Canada Region, commented: "We are delighted that BG Group has recognized Technip's ability to deliver a full package of services."

"This agreement builds on our existing long-standing relationship with BG and reinforces Technip's leading position in the North Sea Subsea sector. We will support BG throughout this agreement from our operating centers in Aberdeen, Scotland and Oslo, Norway."

Genesis, DUCO and Flexi France, all of which are Technip Group entities, will also play a part in executing the contract.

- 
- (1) FEED – front-end engineering and design
  - (2) EPIC – engineering, procurement, installation and commissioning
  - (3) IRM – inspection, repair and maintenance
  - (4) DSV – Diving Support Vessel
