TPG 500 Multi Field

- Dry trees
- Integrated oil storage
- Ideal for marginal field
- Offered on CAPEX or dayrate basis
- In-expensive decommissioning
- Adaptable to drill or accommodation platform specifications
- Removable

TPG 500 Truss Deck – fixed platform installation

- Derived from proven TPG 500
- Conventional integrated truss deck
- Deck commissioned onshore, minimum offshore hook-up and commissioning
- Transport and installation using conventional barge
- Rapid load transfer operation
- Decommissioning is reverse of installation
- Low cost and potential re-use
- Suitable for benign or harsh environments
